

Submission Deadline: December 1, 2017

WATER SAVING

Rebate Contest ^{WIN} \$500

See Program Rules on Your Water Utility's Website for More Info!

What Do You Have To Do? Replace your toilet or purchase a rain barrel through the ACSA's or the City's Rebate Program between now and December 1st to be entered to win \$500!

Replace Your Old Toilet for a \$100 Rebate and be entered to win \$500!

Nationally, if all old, inefficient toilets in the United States were replaced with WaterSense labeled models, we could save 520 billion gallons of water per year, or the amount of water that flows over Niagara Falls in about 12 days.

Purchase a RainBarrel for a \$30 Rebate and be entered to win \$500!

Collecting rainwater will save you money and help the community at the same time. One inch of falling rain on 1,000 square foot roof can result in 600 gallons of rainwater collected. This water can be used to water your lawns and gardens and result in a significant savings on your water bill.
