Comments:

This completed form is required to request activation of irrigation service. Failure to complete this form in its entirety, or obtain a County Backflow Inspection, will result in delayed service activation. If the ACSA is unable to install the water meter due to meter box/vault damage or non-compliance, a trip charge may be assessed.

\* The applicant shall visually inspect the water meter box/vault to ensure it is free of damage and meets the ACSA Construction Specification. This inspection shall include, but is not limited to, verification that the meter setter is centered, the meter setter is at the correct depth, the meter setter laying length is correct, the meter box/vault is free of damage, the meter box/vault is at final grade and the meter box/vault is free of mud and debris.
